BATHROOM RENOVATION

info@kentra.ie

086 300 8583

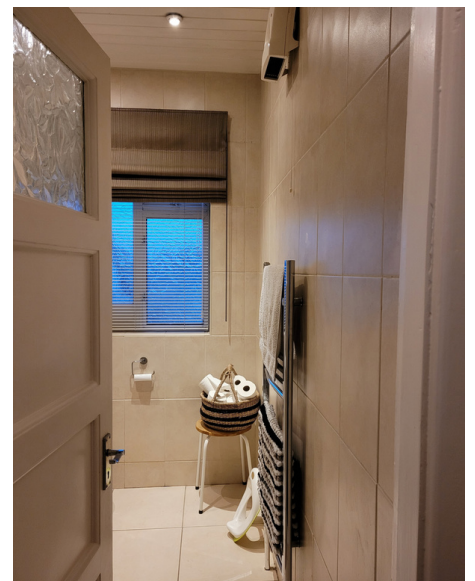

THE SCOPE

Kentra was asked to redesign the bathroom in this house. The bathroom was very dated and not fit for purpose. As new parents, the clients required a bath for their little ones. Although the room only measured 2m x 1.6m, we were able to create a design to suit all of their needs.

The brief:

- New modern bath
- New sink and vanity
- New toilet
- Subway tiles for walls
- Herringbone design for floor tiles
- No chrome fixtures and fittings
